

iContact Plugin for Joomla

Now! Joomla! 3.3 Compatible!

Intellispire's iContact Plugin is developed to act as a **bridge** between Joomla! and iContact [Email Marketing Solutions](#). If you have an iContact account and Intellispire's iContact plugin installed, you are ready to start growing your list.

When people sign up at your Joomla website, they are added to your Joomla user list and automatically added to your iContact email list in the background. The simplified, flexible and seamless integration is just a few clicks away.

Following are some of the features of this must-have Joomla! Plugin.

- Smooth Integration between your Website and [iContact](#)
- 99% deliverability of your email messages and auto responders
- Manage your mailing lists with ease
- Manage Surveys
- Performance tracking of your blast email messaging campaigns.
- Manage your website's RSS Feeds.
- Automated iContact subscription for existing and new users of your website
- Instant, Ready-to-use Email Marketing in just few clicks.
- Easily integrate with [JomSocial](#), [CommunityBuilder](#) and [VirtueMart](#)
- Smooth integration with Joomla 1.5, 1.6, 1.7, 2.5, 3.0 and 3.3 Social Networking Extensions
- On-time Delivery and Extensive Customer Support
- Completely tested as per Joomla 1.5, 1.6, 1.7, 2.5, 3.0 and 3.3 Quality Assurance guidelines.

Simple, Effective and Fast listbuilding using iContact [autoresponders](#) and Joomla

Hook iContact up to your Joomla 1.5, 1.6, 1.7, 2.5, 3.0 and 3.3 native website. When someone registers at your site, they are added to your iContact email list

Intellispire's iContact Plugin is your 24 x 7 sales assistant. Equip your website with this plugin.
